

# Numerical Simulations

in the COMSOL MULTIPHYSICS

Are you looking for professional computer simulation services?  
Would you like to obtain precise and accurate results for your engineering, scientific or research projects?

Our company offers comprehensive computer simulation services  
in the advanced COMSOL Multiphysics software to meet your needs and expectations.

COMSOL  
MULTIPHYSICS®

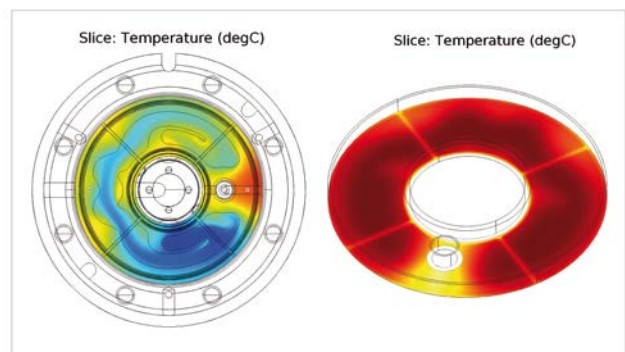

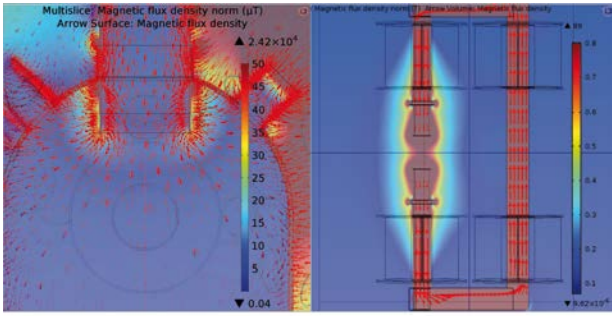

## PREDICT

Our team of experienced engineers and scientists have extensive knowledge and experience in the field of computer simulation. We use advanced tools and numerical methods in COMSOL Multiphysics, which allow the precise modelling and analysis of complex physical phenomena in many fields, such as electromagnetism, heat transfer, fluid flow, solid mechanics and many others.

## OPTIMIZE

Our range of computer simulation services in COMSOL Multiphysics includes modelling and analysis of physical phenomena. We create accurate mathematical models describing complex physical phenomena. We prepare professional reports with the results of computer simulations, which are readable and understandable for the customer.

## ■ INNOVATE

We provide an individual approach to each customer and adapt our services to their specific needs. Our team is ready to cooperate at any stage of the project, from consultancy and advisory services, through the creation of models, to the analysis of results and their interpretation. We strive for complete customer satisfaction by providing high quality, timely and professional services.

**STRUCTURAL  
MECHANICS**

**SOLID MECHANICS  
FLUID-STRUCTURE INTERACTION  
THERMAL STRESS**

**INVESTIGATING EM FIELDS  
ANALYZING EM SYSTEMS  
ANALYSIS OF ELECTRIC CIRCUITS**

**HEAT  
TRANSFER**

**CONVECTION  
RADIATION  
CONDUCTION**

**MULTIPHASE FLOW  
SINGLE PHASE FLOW  
LAMINAR FLOW  
TURBULENT FLOW**

**FLUID**

**We invite you to use our computer simulation services in COMSOL Multiphysics to obtain professional and precise results for your projects.**

Our experienced engineers and scientists are ready to take on the challenges and provide you with a comprehensive service. Contact us today to discuss your needs and receive a competitive quotation tailored to your requirements.
